PRODUCT INFO

DUAL-EDGE SAFETY BLADE

OLSKB2S

DESCRIPTION

The OLFA SKB-2S Stainless Steel Dual-Edge Safety Blade is NSF Certified, making it ideal for the food industry and damp environments. Crafted from premium stainless steel, it resists rust and contamination while maintaining lasting sharpness. Its dual-edge design doubles blade life—simply flip it for a fresh edge. Engineered for safe, precise cutting, it fits the OLFA SK-12 NSF Safe Self-Retracting Safety Knife and is compatible with OLFA SK-4 and SK-9 Safety Knives. Each pack includes a plastic storage case for secure and convenient blade storage.

FEATURES

- NSF Certified for food industry and damp environments.
- Premium stainless steel resists rust and contamination.
- Dual-edge design for double the use—flip to reveal a fresh edge.
- Compatible with OLFA SK-12, SK-4 and SK-9 Safety Knives.
- Provides reliable and safe cutting performance.
- Supplied in a plastic storage case for convenience.
