

## PRODUCT INFO

# WATER LEVEL EXTENSION HOSE

## ZNXWL25-01

### DESCRIPTION

Use the Zircon WL 25 Accessory Hose to replace or extend the hose of your current Zircon water level. Hoses can be extended up to 100 ft. and still work efficiently with your Zircon water level. The Zircon WL 25 Electronic Water Levels make leveling a piece of cake. These professional Zircon water levels simplify not only working alone but also working around corners with accurate and reliable measurements. The WL 25 and WL 25 Pro are great for a number of applications, including erecting fences, building decks and patios, positioning drainage, plumbing, setting forms, completing masonry work, and remodeling interiors.

### FEATURES

- The Zircon WL 25 Accessory Hose can replace or extend the hose of your current Zircon water level
- Accessory hose includes one hose clamp and one hose connector
- Compatible with all Zircon Water Level 25 (WL 25) Models
- Accessory hoses can be expanded up to 100 feet for accurate results
- These hoses are used to accurately level around corners and out of sight of the electronic control unit – perfect for installing decks, fences, chair railings, drop ceilings, and more
