STUDSENSOR™ HD25

ZN-HD25

Stud Finder with SpotLite® Pointer

The StudSensor™ HD25 stud finder features the latest design innovation by Zircon. Made with comfort and value in mind, the HD25 features a contoured grip for a comfortable, secure hold at any angle and a bright, easy-to-understand interface. Find the edges of wood and metal studs to securely hang pictures, mirrors, and shelves to the wall.

FEATURES

- StudScan mode locates the edges of wood or metal studs up to ¾ in. (19 mm) deep
- READY light indicates when calibration is complete and tool is ready for use
- EDGE arrow illuminates when you have found the edge of the stud
- Zircon's patented "over-the-stud" indication alerts you to start the scan in a new location as scanning began over a stud
- SpotLite® Pointer shines an arrow-shaped light on the wall to clearly indicate the edge of the stud
- Translucent base and illuminated "V" marker groove for more accurate marking of stud edge location
