

PRODUCT INFO
HANDY SAW
KW440

DESCRIPTION

The Kanzawa Handy Saw embodies precision and durability with its bimetallic blade crafted from flexible spring steel, resistant to breakage, and a cutting edge of high-speed steel, ensuring exceptional sharpness. Designed for versatility, it seamlessly tackles a range of materials from iron to non-ferrous metals, new building materials, plastics, PVC, slate, and gypsum boards. The handle, forged from robust die-cast aluminum, guarantees longevity. Its single-screw design facilitates easy blade replacement and length adjustment, adapting effortlessly to varied tasks. This Japanese-made tool excels in navigating crevices and deep spaces, making it indispensable for electrical work, plumbing, and diverse do-it-yourself projects. The Kanzawa Handy Saw is a testament to Japanese craftsmanship, combining innovation and reliability.
