

PRODUCT INFO

HICKORY DOUBLE-ENDED SCUTCH HAMMER

FAIDSH

DESCRIPTION

The Faithfull Hickory Double Scutch Hammer is a specialized tool designed for the meticulous task of dressing and cleaning bricks. It features a unique double scutch design with comb slots at both ends, allowing for the attachment of replaceable one-inch scutch combs or chisel bits, known as droves. This versatility makes it an indispensable companion for masons and bricklayers looking to achieve precise results. The hickory handle/shaft not only provides durability but also offers a comfortable and secure grip, ensuring that users can work with confidence and precision. Whether you're in the construction industry or a dedicated DIY enthusiast, this hammer is an essential addition to your toolkit for brickwork refinement.

USE WITH

FAICB525 25mm Smooth Chisel Bits
