

## PRODUCT INFO

# WATER PRESSURE GAUGE ON HOSE

### PT1119

### DESCRIPTION

The Plumtest Water Pressure Gauge with Hose is designed for accurate testing of static water pressure in properties. It measures up to 2500 kPa / 360 psi, with a dual scale for readings in both KPa and PSI. The 215mm high-pressure hose provides flexibility, making it easier to view the gauge. Filled with glycerin to protect internal components, this durable gauge comes with a brass bush adaptor to fit either 3/4" or 1" BSP threads. Suitable for 1/2" and 3/4" hose/bib taps.

### FEATURES

- Accurate testing of static water pressure.
- Dual scale - measures up to 2500 kPa / 360 psi.
- Hose provides flexibility for easier reading.
- Glycerin-filled to protect internal components.
- Brass bush adaptor fits 3/4" & 1" BSP threads.
- Suitable for 1/2" and 3/4" hose/bib taps.

**BARCODE:** 9348099001005

**OVERALL LENGTH:** 334mm

**HOSE LENGTH:** 215mm

**PRESSURE:** 2500kPa / 360psi

**THREAD:** 3/4" & 1" Female BSP

**FITS:** 1/2" & 3/4" hose taps

**WEIGHT:** 360g
