

## PRODUCT INFO

# CYLINDER STRAP

### PT5087

### DESCRIPTION

The Plumtool Cylinder Strap is a 2.4m cylinder lifting aid designed to simplify moving and lifting hot water cylinders in tight or challenging spaces. Its super-strong handle loops provide a reliable grip, effectively adding handles to your cylinder for easier manoeuvrability. The strap features a protective surface that won't scratch or damage the cylinder and includes a magnet to help hold the strap in place, ensuring safe and secure handling. Australian designed for durability and practicality, this tool is an essential aid for anyone working with hot water cylinders in confined areas.
