

PRODUCT INFO

PRO-CLAW™ MOULDING PULLER E-MPG300

DESCRIPTION

Estwing Moulding Pullers are crafted from fine tool steel that is drop-forged and tempered to ensure exceptional durability. Featuring a chrome finish and a comfortable blue cushion grip, these pullers combine strength with user comfort. One end boasts a 90° angled Japanese-style claw with sharp, precise tips designed to easily extract embedded or headless nails. The opposite end has a wide, V-shaped curved tail that is thin and precise, allowing for the removal of moulding with minimal surface damage. Both ends are effective for nail removal. Made in Taiwan / Japan.

FEATURES

- Drop-forged, tempered fine tool steel for strength.
- Chrome finish with blue cushion grip for comfort.
- 90° angled Japanese claw removes embedded/headless nails.
- Precision thin, wide V-shaped curved tail removes moulding with minimal surface damage.
