

## PRODUCT INFO

# 4LB ENGINEER'S HAMMER

## E-MRF64E

### DESCRIPTION

The Estwing Sure Strike® Engineer Hammer is a professional-grade mini sledge built for tough jobs. Its hardened, tempered, and fully polished forged steel head delivers powerful blows with long-lasting durability. Favoured by geologists and contractors, worldwide, this hammer excels in demolition, spike driving, and heavy-duty striking tasks. The yellow fiberglass handle is textured and jacketed for non-slip grip and shock absorption, making it ideal for use in tight or confined spaces. Strong head-to-handle bonding ensures consistent performance and long service life. Made in Taiwan.

### FEATURES

- Hardened and tempered forged steel head.
- Blue painted finish with polished, beveled faces.
- Textured yellow fibreglass handle for grip and control
- Designed for controlled heavy striking.
- Strong head-to-handle bond for long-term reliability.
- Ideal for demolition, spike driving, and wedge work etc.
