

PRODUCT INFO

14OZ AL-PRO™ HAMMER E-ALBK

DESCRIPTION

The Estwing AL-PRO™ is made from forged aircraft aluminium alloy, which is lighter than titanium. Vibration dampening shot is built into the head giving every blow the maximum force. The PERMA-CAP™ steel head and interlocking steel claw give this hammer durable strength where it is most needed, and the reduced claw length provides increased leverage. There is a magnetic nail starter in the head. The AL-PRO delivers power in a lighter weight package, for the best performance in a hammer with our patented Shock Reduction Grip®. Made in the U.S.A.

FEATURES

- Aircraft aluminium hammer with PERMA-CAP™ steel head and interlocking steel claw.
- Revolutionary technology, lighter than titanium.
- Vibration dampening shot is built into the head for more power in each blow.
- Magnetic nail starter in head.
- Patented Shock Reduction Grip®.
- Smooth face ideal for clean, mark-free striking.
