

PRODUCT INFO

# LONG-CUT OFFSET AVIATION SNIP

## MW6516

### DESCRIPTION

MIDWEST® POWER CUTTER® Offset Long Cut Aviation Snips feature 2.375" length of cut for fewer rebites and are easier to maneuver when making long cuts, cutting ribbed materials, or cutting curves in full sheets of thin material. Use in either hand. These snips feature GLIDETECH® FORGED BLADES: unequaled strength, longest lasting edge life, and the most precise cutting action. Blades are hot drop forged of molybdenum alloy steel and Austemper® heat-treated to best accept and hold their precision ground cutting edge. Blades cut complete from "pinch of the blades through their points." Equipped with KUSH'N-POWER® compound leverage handle action which multiplies handle force while providing a soft, sturdy and comfortable grip. Made in USA!

### Cutting Capacity:

20ga cold rolled steel
