# DUSTCUT 125

## HLDUSTCUT1251

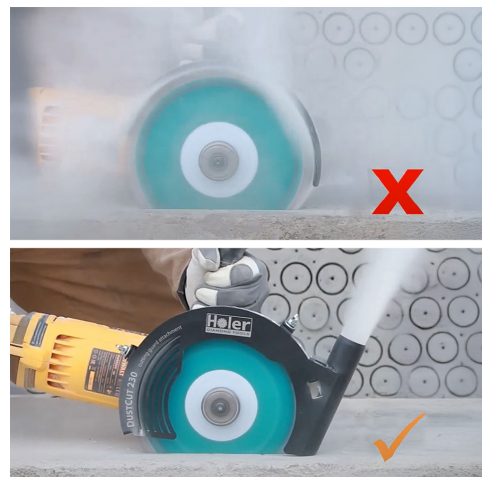

### DESCRIPTION

The Holer DustCUT Dust Cutting Guard is a clip-on universal dust extraction attachment designed to fit any standard 5" (125mm) angle grinder guard. For optimal dust collection, it should be connected to an industrial dry vacuum with a power rating of over 1kW. The DustCUT can be used in both UP-cut and DOWN-cut positions, ensuring the bottom of the vacuum port remains in contact with the cutting surface for best results. This setup provides a clear view of the cutting line and enhances blade cooling.

### FEATURES

- Fits any standard 5" (125mm) angle grinder guard.
- Connect to an industrial dry vacuum for best results.
- Works in UP-cut and DOWN-cut positions.
- Provides full view of the cutting line.
- Superior cooling of the blade.
- Multi-fit clamp collar.
- DustCUT is not a cutting guard.
