

PRODUCT INFO

CLUB HAMMERS

DESCRIPTION

Estwing Club Hammers, also known as Drilling Hammers, are built for delivering heavy blows with a short, controlled swing. Designed for striking chisels, punches, star drills, spikes, and hardened nails, they offer exceptional strength and precision. Each hammer is forged in one solid piece from American steel for maximum durability. The bonded and molded Shock Reduction Grip® is made from a nylon-vinyl compound and is permanently attached to the handle, reducing impact vibration by up to 70%. These hammers also feature fully polished faces and a distinctive blue UV coating. Made in the U.S.A.

FEATURES

- Forged in one piece from solid American steel.
- Shock Reduction Grip® reduces vibration by 70%.
- Grip is molded and bonded for durability and comfort.
- Designed for controlled heavy striking.
- Ideal for use with chisels, punches, drills, and nails.
