

## PRODUCT INFO

# PLASTIC GOLD PANS

### DESCRIPTION

Estwing's Plastic Gold Pan is a durable, lightweight option for gold prospectors and geologists. Made from heavy-duty plastic, it is rust-proof, chemical-resistant and built to withstand long-term outdoor use. The pan features moulded ridges with varied spacing and sizes to effectively trap both fine and coarse alluvial gold. Its black colour enhances contrast, making gold particles easier to spot. Compact and easy to carry, it's ideal for serious panners where rucksack space or weight is limited. Trusted by professionals worldwide.

### FEATURES

- Rust-proof, chemical-resistant plastic.
- Lightweight and durable design.
- Moulded ridges for panning alluvial gold
- Black colour enhances gold visibility.
- #1 choice of geologists worldwide.
