

PRODUCT INFO

PRO-CLAW™ RSC BAR E-RSC

DESCRIPTION

The Estwing Pro-Claw™ RSC Bar is a patented 3-in-1 tool designed for roofing, siding, and construction tasks. Forged from fine American tool steel, it combines durability with innovative design. One end features a large, flat pry blade with a 63.5mm (2.5") fulcrum, providing superior lifting power for removing shingles, siding, sheeting, gutters, and downspouts. The opposite end features a Japanese-style nail puller with a rounded head, providing increased leverage for extracting even the most difficult nails. Made in the U.S.A.

FEATURES

- Patented 3-in-1 roofing, siding and construction bar.
- Solid drop-forged American steel.
- 63.5mm fulcrum for high lift and easy removal.
- Removes shingles, siding, sheeting, gutters, and downspouts.
- Large flat prying blade on one end, and nail puller on the other.
- Japanese-style nail puller for tough, embedded nails.
