

PRODUCT INFO

CLAW FRAMING HAMMERS

DESCRIPTION

The Estwing Curved Claw Framing Hammer is made from one solid piece of American steel, offering maximum strength and durability. It is fully polished, with the head and handle forged in one piece for long-lasting performance. The patented Shock Reduction Grip® reduces vibration impact by up to 70%. This nylon-vinyl grip is permanently bonded for comfort and durability. The hammer provides unsurpassed balance and temper for better control. Made in the U.S.A.

FEATURES

- One-piece solid American steel, forged and polished.
- Longer handle for more striking power.
- Patented Shock Reduction Grip® cuts vibration by up to 70%.
- Durable molded nylon-vinyl handle for comfort.
- Excellent balance and temper for control.
- Smooth face ideal for clean, mark-free striking.
