

PRODUCT INFO

RIP FRAMING HAMMERS

DESCRIPTION

The Estwing Curved Claw Framing Hammer is made from one solid piece of American steel, offering maximum strength and durability. It is fully polished, with the head and handle forged in one piece for long-lasting performance. The framing hammer has a longer handle for more striking power, making it ideal for heavy-duty tasks. The patented Shock Reduction Grip® reduces vibration impact by up to 70%. This nylon-vinyl grip is permanently bonded for comfort and durability. The hammer provides unsurpassed balance and temper for better control. Made in the U.S.A.

Smooth Face ideal for clean, mark-free striking.

Milled Face provides superior traction on nails.

| CODE | BARCODE | HEAD WEIGHT | LENGTH | FACE FINISH | CLAW TYPE | HANDLE GRIP | WEIGHT |
