ERGO-FOLD™ HEX KEY SET

EK25172

7
PC

DESCRIPTION

The Eklind Ergo-Fold™ Hex Key Set is made in the U.S.A. using high-quality Eklind® Alloy Steel, heat-treated for superior strength and ductility. With its Eklind® Black Finish, the set resists rust and wear. The fold-up design includes a variety of popular sizes in one convenient handle, preventing the loss of individual keys. Fold a key out to a right angle for maximum leverage or fully extend it to operate like a screwdriver. The ergonomic handle, featuring a hard plastic shell and soft over-mold, ensures comfort, slip resistance, and safety. The set is colour-coded blue for metric sizes, offering an efficient tool solution.

FEATURES
