

## PRODUCT INFO

# WATER PRESSURE GAUGE

### PT1730

### DESCRIPTION

The Plumtest Water Pressure Gauge is designed for accurate testing of static water pressure in properties. It measures up to 2500 kPa / 360 psi, with a dual scale for readings in both KPa and PSI. Filled with glycerin to protect internal components, this durable gauge comes with a brass bush adaptor to fit either 3/4" or 1" BSP threads. Suitable for 1/2" and 3/4" hose/bib taps. Packaged in a sturdy foam-lined box for added protection during transportation and storage.

### FEATURES

- Accurate testing of static water pressure.
- Dual scale - measures up to 2500 kPa / 360 psi.
- No hoses, fits directly to tap.
- Glycerin-filled to protect internal components.
- Brass bush adaptor fits 3/4" & 1" BSP threads.
- Suitable for 1/2" and 3/4" hose/bib taps.

**BARCODE:** 9348099001142

**DIMENSIONS:** 130 x 68 x 37mm

**PRESSURE:** 2500kPa / 360psi

**THREAD:** 3/4" & 1" Female BSP

**FITS:** 1/2" & 3/4" hose taps.

**WEIGHT:** 308g
