

PRODUCT INFO

GAS TESTER

PT1098

DESCRIPTION

The Plumtest Gas Tester with 1/2 inch BSP bottom entry offers a simple and reliable way to test gas installations. Made to a high-quality standard, the gauge has been filled with Glycerin to protect workings. The tester includes a bottom entry 1/2 inch BSP thread for easy connection, along with a side-entry schrader valve for pressurising installation. With a dual scale that reads in both kPa and PSI, it measures pressure up to 60kPa / 8.7psi. Ideal for tradespeople, this robust and accurate tool ensures gas systems are safe and compliant with ease.
