

PRODUCT INFO

SOLVENT MATES

PT5609

DESCRIPTION

The Plumtool Solvent Mates Applicator Pair is designed for joining PVC pipes and fittings, offering a convenient and mess-free solution. The applicators prevent direct skin contact with harsh chemicals, ensuring safety during use. With colour-coordinated blue and red applicators for primers and solvent cements, the pair provides a nice, even application, reducing the risk of overuse or insufficient product application. Each applicator comes with a lid to keep them protected when not in use, ensuring longevity and cleanliness.

FEATURES

- Designed for joining PVC pipes and fittings.
- Prevents mess & direct skin contact with harsh chemicals.
- Ensures even application of primers and solvent cements.
- Reduces the risk of overuse or insufficient product application.
- Colour-coordinated blue and red for easy identification.
- Includes protective lids to keep applicators clean and safe.
