LUGGED ELBOW EXTENDER KIT

PT1786

DESCRIPTION

The Plumtool Lugged Elbow Extender Kit provides a reliable solution for extending lugged elbow fittings by 20mm. Crafted from durable brass, it installs internally for a cleaner, more secure finish. The design eliminates the need for tile cutting, reducing the risk of cracks or costly rework. Simple to install, no special cutting tools are required, making it faster and easier for plumbers to fit. The kit includes a tap, brush, and Allen key, ensuring precise threading and a professional, long-lasting result.

FEATURES

- Extends lugged elbow fittings by 20mm.
- Made from durable brass for long-lasting performance.
- No tile cutting required, reducing risk of damage.
- Quick and easy installation.
- Kit includes 4 Extenders, 3/8" Franz Tap, Brush, and a 10mm Hex Key.
- Lugged Elbow Extender 6 Pack is also available (PT1787).
