

PRODUCT INFO

LUGGED ELBOW EXTENDERS

PT1787

DESCRIPTION

The Plumtool Lugged Elbow Extender extends lugged elbow fittings by 20mm, providing a precise and reliable solution for plumbing installations. Made from durable brass, it fits internally for a cleaner, more secure finish. The design eliminates the need for tile cutting, reducing the risk of cracks or rework. Quick and simple to install, no special tools are required - just tighten with an Allen key after threading. Ideal for achieving a professional, long-lasting connection while making installations faster and safer. Comes in a pack of 6.

FEATURES

- Extends lugged elbow fittings by 20mm.
- Made from durable brass for long-lasting performance.
- No tile cutting required, reducing risk of damage.
- Quick and easy installation.
- Lugged Elbow Extender Kit is also available (PT1786).
