

PRODUCT INFO

FRANZ TAPS

DESCRIPTION

The Plumtool Franz Tap is an essential tool for maintaining female fittings. It excels at cleaning and straightening these fittings, especially when dealing with rust build-up during PTR valve changes on hot water services. Its robust design ensures effective rust removal and precise fitting adjustments, making it indispensable for any plumbing professional. As a genuine Plumtool product, it guarantees quality and durability, delivering reliable performance for efficient maintenance and repair tasks.

FEATURES

- Designed for cleaning and straightening female fittings.
- Effective at removing rust build-up during PTR valve changes.
- Ensures precise fitting adjustments and efficient maintenance.
- Genuine Plumtool product.
