# SMOKE PEN

PT9837

DESCRIPTION

The Plumtest Smoke Pen is an essential tool for HVAC professionals and safety checks. It is specified for carbon monoxide testing, detecting even the slightest air movement or gas spillage. Perfect for air leakage and smoke alarm testing, this non-toxic, slow-burning smoke emitter ensures reliable results. Each pen includes six smoke wicks, with replacement packs available (PT9830). Ideal for precise testing needs, the Plumtest Smoke Pen combines convenience, safety, and effectiveness for a wide range of applications.
