

PRODUCT INFO

12L TEST BUCKET

TWTP50

DESCRIPTION

This 12L Test Bucket is engineered for precise and dependable pressure testing of plumbing, oil, and pipe systems. Built with heavy-duty steel construction, it withstands pressures up to 60bar / 860psi / 6MPa and temperatures up to 50°C (120°F). Equipped with a 1.35m hose and a convenient 2-valve system, this test bucket allows for efficient control during testing. Its robust design and 12-litre capacity make it perfect for professional plumbers, gas fitters, and maintenance technicians who demand reliable performance on every job.

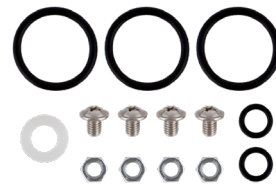

FEATURES

- Heavy-duty steel construction for durability.
- 12-litre capacity ideal for residential & commercial testing.
- Equipped with a 1.35m flexible hose for easy reach.
- Two-valve system for precise pressure control.
- Suitable for testing water and oil systems.
