CORK SANDING BLOCK

MM1660

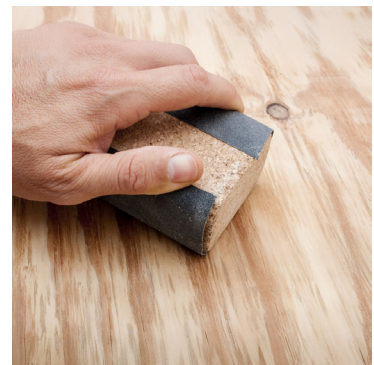

DESCRIPTION

The Monument Tools Cork Sanding Block is designed for holding sandpaper securely during use. Made from condensed cork, it features beveled edges that help prevent rips or tears in the sandpaper. Measuring roughly 10cm x 6cm, it fits comfortably in the palm of your hand and is very lightweight, making it easy to manoeuvre. The natural cork surface helps prevent the sandpaper from slipping while sanding, ensuring even contact with the work surface. Suitable for a variety of sanding tasks, it provides a simple, practical solution for holding and using sandpaper efficiently.

FEATURES

- For holding sandpaper.
- Made from condensed cork.
- Beveled edges prevent paper rips or tears.
- Fits comfortably in the hand.
- Very lightweight and easy to handle.
- Cork surface prevents paper slippage.
