

PRODUCT INFO

SOLDERING MAT

MM2350

DESCRIPTION

The Monument Soldering Mat is a high-temperature protective mat designed for use with butane and propane when soldering or brazing copper pipes. Measuring 300mm x 300mm, it provides a substantial area of protection for paintwork, woodwork, and surrounding surfaces. The mat is manufactured from heavy-density glass weave fibre and resists temperatures up to 600°C. Safe to use, it does not present any of the hazards associated with asbestos materials. Made in Britain.

FEATURES

- High-temperature mat for soldering & brazing.
- Suitable for use with butane and propane.
- Made from heavy-density woven glass fibre.
- Resists temperatures up to 600 °C.
- Protects paintwork and woodwork from heat damage.

BARCODE: 5015375023504

SIZE: 300mm x 300mm

HEAT RESISTANCE: Up to 600° C

MATERIAL: Woven Glass Fabric

USE WITH: Butane & Propane

WEIGHT: 280g
