

## PRODUCT INFO

# MINI TUBE BENDER

### MM2611

### DESCRIPTION

The Monument Tools Mini Tube Bender is a compact, 3-in-1 tool designed for bending 6mm, 8mm, and 10mm microbore copper tube (OD). It allows precise bends up to 180°, with engraved markings at 45°, 90°, 135°, and 180° for accuracy. The bender provides consistent results without kinking the tubing and features a knurled, non-slip grip for better control. Its pocket-sized design makes it convenient for on-site use. Suitable for gasfitting, plumbing, drainage, as well as air conditioning and refrigeration applications.

### FEATURES

- For bending 6, 8 & 10mm copper tube (OD).
- Engraved 45°, 90°, 135°, 180° angle markings.
- Provides consistent bends without kinking.
- Knurled non-slip grip for better control.
- Compact pocket-sized and easy to use.
