

## PRODUCT INFO

# SOLDERING TORCH

### MM3450

### DESCRIPTION

The Monument Contractors Soldering Torch is designed for professional soldering and brazing of copper, brass, and aluminium. Suitable for use with Propane and Map/Pro® gas, it connects to CGA 600 (1" threaded) cylinders. The torch features a Piezo ignition for instant flame start, a brass gas control valve for precise flame adjustment, and a flame lock button for hands-free operation. Producing a hot, wrap-around turbine flame, it can be used at any angle (not for prolonged periods). Handle only - gas not included. Built to contractor quality standards.

### FEATURES

- For use with Propane and Map/Pro® gas.
- Fits CGA 600 (1" threaded) cylinders.
- Piezo ignition for instant flame.
- Brass gas control valve for precise adjustment.
- Flame lock button for hands-free use.
