

PRODUCT INFO

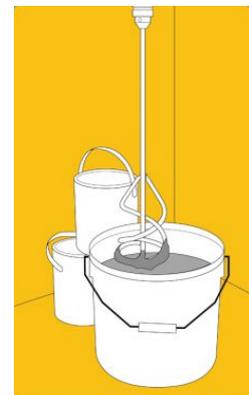

LARGE SPIRAL MIXER

GB02044

DESCRIPTION

The Goldblatt Spiral Mixer is built from high-quality, powder-coated steel for durable, long-lasting performance. Designed for efficient, fast mixing, it handles a wide range of materials including paint, cement, grout, thinset, and other setting compounds. Its spiral design ensures smooth, consistent blending with minimal effort. Suitable for standard 1/2 in. drill chucks, it requires a minimum 6 AMP motor and operates effectively at up to 800 RPM. This versatile mixer is ideal for both professional tradies and DIY users seeking reliable, high-performance mixing results.
