

PRODUCT INFO

RUBBING BRICK

GB06956

DESCRIPTION

The Goldblatt Rub Brick is designed for smoothing and dressing down concrete, bricks, and freshly cut tile, as well as removing surface marks. Made with a fluted silicon carbide stone, it delivers fast, efficient material removal and long-lasting performance. The coarse 20-grit surface provides strong cutting action for tough jobs. A comfortable, contoured handle ensures a secure grip and helps minimise user fatigue during extended use.

FEATURES

- Ideal for dressing down concrete, bricks, and newly cut tile.
- Removes surface marks quickly and efficiently.
- Fluted silicon carbide stone construction.
- Coarse 20-grit surface.
- Comfortable contoured handle to minimise fatigue.
