

PRODUCT INFO

BASIN WRENCH

DESCRIPTION

The Stanway Trade Adjustable Basin Wrenches are designed for plumbing professionals and DIY enthusiasts tackling tight spaces. Ideal for under-sink work, it easily tightens and loosens nuts on wash basins, ballcocks, and flush valves. Featuring a chrome-plated steel shaft and durable forged steel jaws, it ensures long-lasting performance. The spring-loaded jaw self-adjusts to fit 10–19mm nuts, while the 180° pivoting head allows access at any angle. A sliding T-bar handle provides superior leverage and grip, making tricky plumbing tasks quicker and more efficient.

FEATURES

- Tightens and loosens nuts/fittings in hard-to-reach places.
- Perfect for under sink applications, wash basins, ballcocks, flush valves.
- Chrome-plated shaft with durable forged steel jaws.
- Spring-loaded jaw self-adjusts to suit nuts 10–19mm.
- 180° pivoting head holds in any position.
