

PRODUCT INFO

UNDERGROUND TAPES

DESCRIPTION

Stanway Underground Detectable Tapes provide a clear, reliable warning for buried utilities, helping prevent costly damage and safety hazards on excavation sites. Each roll features a bright, high-visibility colour with bold black text for easy reading. Made from durable plastic embedded with metallic elements, these tapes can be detected with specialized locating equipment, ensuring precise identification. For best results shallow bury tape 150-300mm from finished grade, ensuring maximum distance between warning tape and buried pipe. Tape meets or exceeds industry standards.

FEATURES

- Bright, high-visibility colour - easy to spot & read.
- Made from durable plastic embedded with metallic elements.
- Helps to prevent damage and hazards during excavation or construction.
- Shallow bury 150-300mm from finished grade for optimal warning.
