

PRODUCT INFO

NATURAL CABLE TIES

DESCRIPTION

The Stanway Natural Cable Ties are ideal for bundling and organising cables, wires, and items around the home, office, worksite or workshop. Made from high-quality Nylon 6/6, they feature a one-piece injection-moulded construction for strong tensile strength and reliable performance. Rated UL 94V-2 for flame resistance and suitable for temperatures from -40°C to 85°C, these ties offer durability for indoor use. Perfect for general-purpose fastening and organising tasks, they provide a neat, secure, and long-lasting solution wherever reliable indoor cable management is needed.
