

## PRODUCT INFO

# RUBBER BUCKET

### DESCRIPTION

The Stanway Rubber Buckets are a versatile and reliable tool for masonry, concrete, and general construction use. Crafted from heavy-duty rubber, it withstands heat, cold, acids, and chemicals, ensuring long-lasting performance. Its robust design resists rust, dents, leaks, and chips, while its flexible material allows it to bounce if dropped, reducing damage and mess. Ideal for holding a variety of materials, these buckets are a practical choice for builders and DIY enthusiasts looking for durability and dependability on any job site. Available as a 12L with standard lip or 18L with pouring lip.

### FEATURES

- Reliable for masonry, concrete, and general use.
- Holds a variety of materials.
- Heavy-duty rubber resists heat, cold, acids, and chemicals.
- Bounces if dropped, preventing damage.
- Rust, dent, leak, and chip resistant.
