

PRODUCT INFO

DEADHEAD® RUBBER MALLET

DESCRIPTION

Estwing Deadhead® Rubber Mallets feature a bounce-resistant design thanks to Deadhead Technology, which reduces rebound to improve user control and prevent accidental damage. The premium genuine hickory handle provides durability while offering a comfortable, shock-absorbing grip for extended use. The grey rubber head is softer, making it ideal for delicate surfaces where a non-marring strike is essential. These mallets are ideal for various tasks, including sheet metal forming, upholstery, automotive repairs, furniture assembly, tile setting, flooring installations, and camping activities.

FEATURES

- Grey Rubber Head: Non-marring, ideal for delicate surfaces
- Deadhead Technology minimizes bounce and rebound.
- Genuine hickory handle for comfort and shock absorption.
- Suitable for sheet metal, upholstery, automotive, furniture, tile, flooring, and camping.
- Assembled in the USA with mixed origin components.
