

PRODUCT INFO

# TUBE SPANNERS

## IMPERIAL (AF)

### DESCRIPTION

Melform Double-Ended Tube Spanners feature hexagonal profiles at both ends for reliable fastening in confined spaces. Manufactured from heavy gauge steel and air-pressed for strength, they are built for durability and long service life. Designed for tightening and loosening fittings in hard-to-reach areas using a T-bar (not included), they are ideal for automotive and plumbing work. Manufactured in England, Melco ensures quality-assured products.

### FEATURES

- Double-ended design with hexagonal profiles at both ends.
- Heavy gauge steel construction for strength and durability.
- Designed for use with a T-bar (not included).
- Ideal for accessing tight and hard-to-reach fittings.
- Suitable for automotive and plumbing applications.
- Black powder coating for better corrosion resistance and durability.
