

PRODUCT INFO

STRAIGHT JAW GROOVE JOINT PLIER

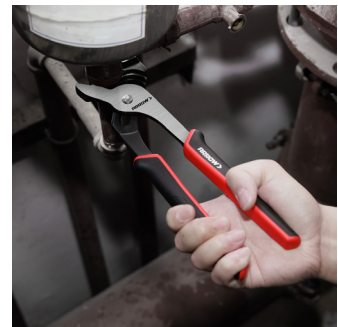

DESCRIPTION

Arrow Groove-Joint Pliers are crafted from high-quality alloy steel, ensuring maximum strength and durability during use. Designed with a bi-material handle, these pliers provide a comfortable and secure grip, reducing hand fatigue while featuring the trusted Arrow logo for quality assurance. The precision-cut teeth offer exceptional gripping power, making it easier to turn fasteners with accuracy and control. Whether you're tackling detailed tasks or heavy-duty jobs, these pliers deliver the strength, comfort, and performance you need for reliable results every time.

FEATURES

- Forged from alloy steel for maximum strength.
- Meets or exceeds ANSI standards.
- Bi-material handle for a comfortable, secure grip.
- Precision-cut, induction-hardened teeth for superior gripping power.
