

PRODUCT INFO

ADJUSTABLE WRENCHES

DESCRIPTION

Discover the power and reliability of Arrow Tool Group hand tools, expertly crafted for both professionals and DIY enthusiasts. Made from heat-treated chrome vanadium steel, these tools deliver exceptional strength and durability, ensuring they withstand rigorous use while maintaining performance. Each tool meets ANSI standards, providing outstanding quality and longevity you can depend on for consistent results with every project. Plus, the innovative thumb screw design on our steel wrenches allows for smooth opening and closing, making adjustments quick and hassle-free.

FEATURES

- Forged from heat-treated chrome vanadium steel for maximum strength.
- Built to meet ANSI standards for long-term reliability.
- Easy-open thumb screw for smooth, fast adjustment; worm-gear design reduces wobble.
- Laser-etched scale for clear, easy measurement.
- Dual markings: imperial on one side and metric on the other for versatile use.
