

## PRODUCT INFO

# INSPECTION MIRRORS

### DESCRIPTION

The CatsPaw® Inspection Mirror is the perfect tool for viewing or magnifying hard-to-see areas with ease. Its pivoting ball joint allows multiple viewing angles, while the scratch-resistant glass ensures clear, durable reflections. The telescoping stainless steel handle extends for greater versatile reach, and the removable pocket clip adds convenience on the go. Featuring the original patented 180° swivel design, the mirror holds its position securely. A cushioned handle provides a firm grip even in tough environments. Made in China.

### FEATURES

- Pivoting ball joint for multiple viewing angles.
- Scratch-resistant glass mirror for clear reflections.
- Telescoping stainless steel handle.
- Original 180° swivel design holds position securely.
- Cushioned handle for a secure grip.
- Removable pocket clip.
