

PRODUCT INFO

MAGNETIC PICK-UP TOOLS

DESCRIPTION

CatsPaw® Magnetic Pick-Up Tools are designed to retrieve hard-to-reach metal items with minimal effort. Featuring a straight, telescoping stainless steel shaft, the handle extends for added reach and versatility. A powerful Neodymium Iron Boron magnet delivers reliable lifting strength, while the magnet slide ring helps prevent unwanted side pull. The cushioned handle ensures a secure, comfortable grip in tough working environments. Complete with a removable pocket clip for easy carry. Made in China.

FEATURES

- Magnetic pick-up tool for hard-to-reach metal items.
- Telescoping stainless steel shaft.
- Powerful Neodymium Iron Boron magnet with slide ring to prevent side pull.
- Cushioned handle for a secure grip.
