

## PRODUCT INFO

# SPEEDGRIP™ V-JAW TONGUE & GROOVE PLIERS

### DESCRIPTION

Channellock SpeedGrip V-Jaw Tongue & Groove Pliers make fast and easy non-slip adjustments so you can get the job done even quicker. Laser-hardened angled teeth are self-gripping and last longer thanks to innovative engineering. There is also a reaming feature for easy deburring of pipe. Finally, like all Channellock pliers, SpeedGrip Tongue & Groove Pliers are made in the USA from high carbon U.S. steel for ultimate strength and have comfort handles with no-slip grips.

- Push-button adjustment locks securely into undercut channels.
- V-jaw design for better grip on round stock.
- Strong laser-hardened teeth deliver superior grip and extended longevity.
- Strong alloy steel fastener for reliability.
- SAFE-T-STOP® prevents finger pinching.
- Reaming feature for deburring pipe.
- Rust-resistant, forged high-carbon U.S. steel.
- Non-slip grips for control and comfort.
