

PRODUCT INFO

SMOOTH JAW TONGUE & GROOVE PLIER

DESCRIPTION

Channellock Smooth Jaw Tongue & Groove Pliers offer all the versatility and strength of straight jaw pliers, but with a smooth jaw design to protect surfaces from scratching, such as PVC pipe and chrome. These pliers are built to last and feature a PERMALOCK® fastener that eliminates nut and bolt failure and a patented reinforcing edge to minimize stress breakage. Proudly made 100% in the USA, forged from high-carbon U.S. steel and specially coated for rust prevention.

- Smooth jaws provide a strong grip and protect plated surfaces or soft fasteners (nickel, chrome, PVC) from scratching or marring.
- Reliable Permalock fastener eliminates nut and bolt failure with increased joint strength.
- Forged high-carbon U.S. steel is specially coated for superior rust prevention.
- Undercut double tongue & groove won't slip.
- Channellock blue grips for comfort.
