DESCRIPTION

Jorgensen's Oscillating Blade Assortment Pack delivers versatility and performance for a wide range of cutting applications. This 10-pack includes BIM Fine Tooth and HCS Japanese Tooth blades, providing reliable options for both precision and general-purpose cutting tasks. The bi-metal (BIM) blades are ideal for cutting wood, nail-embedded wood, drywall, PVC, copper, and steel, while the high-carbon steel (HCS) Japanese tooth blades are designed for fast, accurate cutting of hardwood, softwood, drywall, and PVC. All blades feature durable construction for extended service life and efficient performance. Each blade includes a universal-fit open-back connector for compatibility with most major oscillating tools, plus a D-Brand adapter.
