DESCRIPTION

Jorgensen's Oscillating Blade Assortment Pack delivers versatility and reliable performance for a wide range of cutting applications. This 10-pack includes BIM Fine Tooth, HCS Fine Tooth, and HCS Japanese Tooth blades, providing multiple options for precision cutting across different materials and tasks. The bi-metal (BIM) blades are ideal for cutting wood, nail-embedded wood, drywall, PVC, copper, and steel, while the high-carbon steel (HCS) blades are suited to hardwood, softwood, drywall, and PVC. The Japanese tooth design offers fast, clean, and accurate cutting performance. All blades feature a universal-fit open-back connector for compatibility with most major oscillating tool brands, plus a D-Brand adapter.
