TORX IMPACT SOCKET RAIL SET

GFB566

10_{PC}

DESCRIPTION

The GFB 10 Piece 1/2" Drive Torx Impact Socket Rail Set is built for high-torque impact tools and demanding automotive, mechanical, and industrial applications. Manufactured from high-strength chrome molybdenum (CR-MO) steel, each extra-long socket is heat treated for maximum strength, durability, and impact resistance. Precision-machined Torx tips provide a secure fit and reliable torque transfer, while the rounded-corner socket design helps reduce stress and extend service life. Finished with a black phosphate coating for corrosion protection, the set includes sizes T20–T70 and is supplied on a socket rail for organised storage and easy access.

FEATURES

- Designed for high-torque impact tools.
- Extra-long sockets for deep or restricted access.
- Precision-machined Torx tips for a secure fit.
- Rounded-corner design reduces stress and wear.
- High-strength chrome molybdenum (CR-MO) steel.
- Black phosphate finish protects against rust & corrosion.
- Includes socket rail for organised storage and easy access.

BARCODE: 9313234005668

TYPE: Torx (Star Drive)

DRIVE: 1/2"

SIZES: T20, T25, T27, T30, T40, T45, T50, T55, T60, T70

LENGTH: 78mm

QUANTITY: 10pc

MATERIAL: Chrome Molybdenum

FINISH: Black Phosphate

RAIL DIMENSIONS: 292 x 20mm

PACKAGING: Carded

WEIGHT (IN PACKAGING): 1110g
