180mm FOLDING PRUNING SAW

GM237H7

DESCRIPTION

The G-Man Folding Pruning Saw is designed for controlled pruning of medium branches in fresh and green wood. The teeth feature a precision-ground design with 7 TPI and hardpoint teeth for balanced cutting performance and clean cuts. Its taper-ground blade reduces friction and provides a smooth cut surface. The folding design allows compact storage, and the blade locks securely in both the open and folded positions for safe handling. The saw features an ergonomic handle with a metal core for improved stability, made from nearly 100% biobased materials for a secure and comfortable grip. The saw also comes with a wrist strap.

FEATURES

- Ideal for sawing medium size branches.
- Precision-ground hardpoint teeth for clean, efficient cutting.
- Taper-ground blade reduces friction for smoother cuts.
- Folding blade with secure locking.
- Ergonomic handle with metal core for strength and stability.
- Includes wrist strap for added convenience.

3-EDGE TOOTHING
