BI-METAL HOLE SAW KIT

MRSET-GP10

10_{PC}

DESCRIPTION

The Morse 10pc General Purpose Bi-Metal Hole Saw Kit provides a practical selection of hole saws and accessories for a wide range of cutting and installation tasks. Supplied in a durable soft carry case for convenient storage and transport, the kit includes eight popular MHS bi-metal hole saw sizes from 22mm to 102mm, along with standard and pinned arbors. MHS hole saws feature a patented tooth set design for faster cutting and efficient chip removal, while the solid cap reduces vibration for greater accuracy. With a 49mm cutting depth and enhanced side slots for easy slug removal, these hole saws are suitable for cutting wood, plastic, stainless steel, machinable metals and nail-embedded timber.

CONTENTS

- 8 x Bi-Metal Hole Saws: 22, 25, 32, 38, 48, 54, 92 & 102mm.
- 1 x Standard Arbor (1/2 - 20) - fits 14 - 30mm hole saws.
- 1 x Pinned Arbor (5/8 - 18) - fits 32 - 168mm hole saws.
- 1 x Soft Carry Case.
