DROP FORGED SHEARS

ARHT01014

DESCRIPTION

Arrow Drop Forged Shears are built for strength, durability and versatile cutting performance. Crafted from heat-treated chrome vanadium steel, the drop-forged, induction-hardened blades provide superior strength and long-lasting sharpness. Ideal for cutting a wide range of materials including metal, plastic, wood, cloth and more. The ergonomic dual-material handle provides comfortable handling during extended use, while the side safety lock offers secure storage. A convenient hang hole allows for easy storage and accessibility in the workshop.
